

Contest Overview:

All of New Hampshire's public high schools have been invited to participate in The NHHEAF Network Organizations' Center for College Planning (CCP) **FAFSA Filing Frenzy Contest!** This short-term contest is designed to increase the number of high school seniors at the state's public high schools completing the FAFSA while offering resources to help students and families complete this important financial aid form.

All high schools reaching the goal of **75%** of their senior class completing the 2019-2020 FAFSA by **Friday, April 19th** will be entered into a drawing. One high school, selected at random, will win a \$1,500 prize to use towards a school-sponsored senior activity (i.e., senior breakfast, Project Graduation, class trip, etc.) as determined by your school's administration and/or school counseling staff.

Update as of April 5, 2019:

As of April 5th, **51.5%** of New Hampshire high school seniors have successfully completed a FAFSA for the 2019-2020 academic year, and as of that date, New Hampshire ranks **19^h** in the nation for the percentage of current high school seniors who have successfully completed submitting a 2019-2020 FAFSA. (Tennessee leads the nation with 75.5% of all high school seniors successfully completing the FAFSA by that date, with Louisiana next at 66.3%. Massachusetts ranks third in the nation at 61.69%.)

The 15 public high schools with the highest completion percentage as of April 5th are featured on the next page of this document.

Please contact your CCP counselor with questions or if we may be of assistance!

High School	Number of Seniors - Data from NHDOE	Number of Completed FAFSAs - Data from USDOE as of April 5, 2019	Percentage of students who have completed the FAFSA as of April 5, 2019
